13th February 2025

AGENDA

1. Apologies / Previous Meeting Minutes
2. CLG Representatives Individual Updates
3. GS Site Operations Update
4. Update on Hydrogen Pathfinder Project
5. Update on Hydrogen Storage Project
6. Humber Hydrogen Pipeline Update
7. Next Meeting Dates
8. AOB

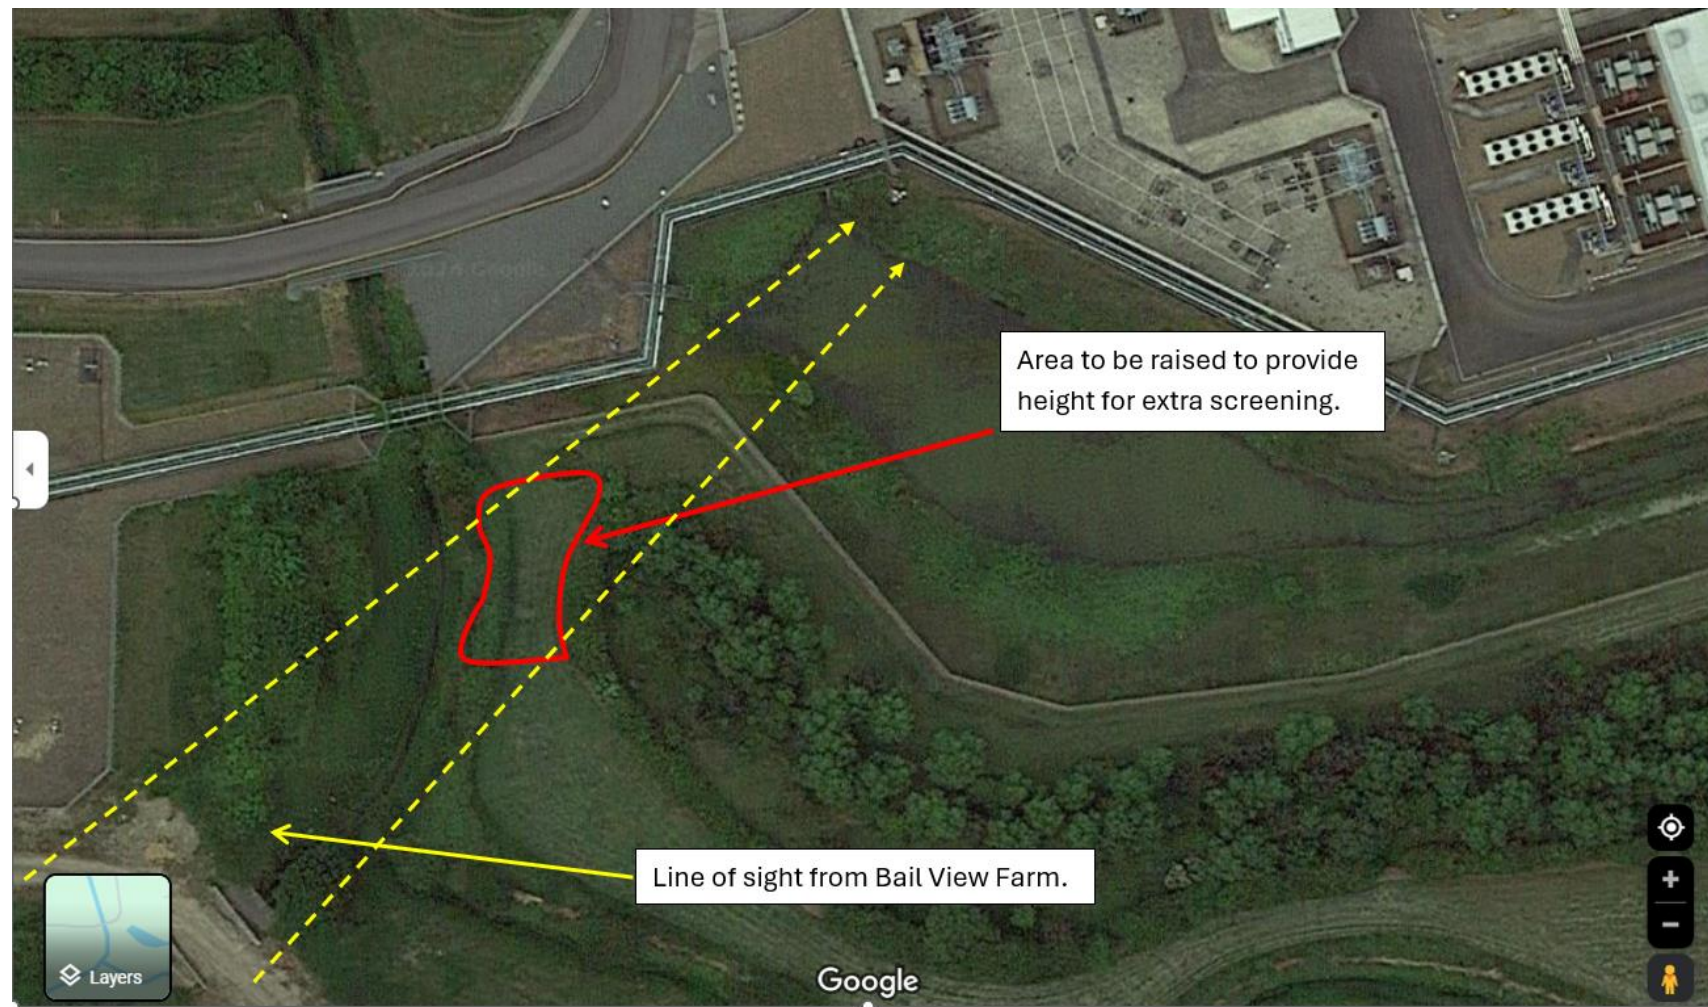

2.INDIVIDUAL UPDATES

3. SITE OPERATIONS

- Business as usual.
- Hornsea secondary school careers fair.
- Careers - 1 apprentice and 1 trainee engineer.
- Tree thinning at St. Michael's wood

ADDITIONAL SCREENING

View from Bail View farm proposal.

24 loads of sub soil, 6 loads of top soil, 20 mix of 5&6foot Leylandii & Scots pine + 40 mixed evergreen trees/scrubs.

4. ALDBROUGH HYDROGEN PATHFINDER

Project update

Town and Country Planning Application

- Assessment of AHP TCPA application ongoing.
- Project description amended in application to account for demolition of brine tanks and warehouse buildings on site where AHP planned to be developed. Note - These works have been assessed in the EIA; the project team were recommended to amend the project description for clarity.

Hazardous Substances Consent Application

- Assessment of HSC application ongoing.

Upcoming consent and permit applications

- Applications for marine licence (to MMO – Marine Management Organisation) and installation permit (to EA) targeted for March 2025.

|| 5. ALDBROUGH HYDROGEN STORAGE

- We have shared a presentation by ERM on feedback from the Statutory Consultation
- This is an interim summary for the CLG and does not reflect the full content of the statutory Consultation Report which will be submitted with the DCO application
- Seismic Survey planned 2025
 - Reconnaissance surveys (on foot) end February
 - UXO survey March-April
 - Demo Day end April
 - Access to beach for seismic will require some work to the existing East Newton Cut – this has been discussed with ERYC
 - Seismic survey August (after harvest)

6. HUMBER HYDROGEN PIPELINE

- Humber Hydrogen Pipeline is a collaboration between Equinor, SSE & Centrica to connect Aldbrough, Saltend & Easington with a crossing of the Humber to the South Bank
- Initial contact has been made with landowners, Ward Councillors and Parish Councils within the proposed pipeline corridor
- Ecological surveys of the route are planned for Spring 2025
- A Non-Statutory Public Consultation is planned for April-May 2025

7. NEXT MEETING DATE

PROPOSED DATES FOR 2025:

- Thursday 24th April
- Thursday 19th June
- Thursday 18th September
- Thursday 20th November

8. AOB

- Safety 'briefing' session suggested for April meeting. Questions and themes to be shared by CLG members to assist with design of the presentation (by March 28th). Session to be led by Dave Ellis (Site Operations Manager) & Jack Wolseley (Thermal SHE Manager)
- Graham Stuart site visit held 24th January
- Bridge request update
- Damaged tree replacement
- Flooding & dyke maintenance / responsibilities (engagement with tenants and review of programme)

THANK YOU
